

Attention all CYS Patrons on Fort Belvoir and Rivanna Station:

CYS has received a number of inquiries and concerns on the continued face mask use policy in the CYS child care programs. It is important to note that it is beyond CYS management's control and face mask use remains a requirement in CYS child care programs.

The updated guidance is anticipated to be released from DCS G9 and IMCOM G9 headquarters in the coming weeks. Once CYS receives the updated guidance, it will require coordination with the Garrison Command team and Army Public Health, in regards to current COVID-19 Community Level determination, before any changes are released for implementation in the programs. CYS will officially notify all patrons of any changes as they are received, coordinated and finalized for implementation.

Respectfully, until the guidance is updated, ALL children 2 and over, visitors, patrons and CYS employees **REQUIRE** continued face mask wearing in accordance with CYS Mask-Wearing Policy for all CYS child care programs. Patrons who fail to adhere to the face mask policy will be **denied access** to the facility and/or potentially face termination of services for policy violations.

Thank you for your continued cooperation and understanding as we remain vigilant to ensure everyone's health and safety!

v/r  
CYS Management
